Supplying Quality British Food & Drink

Spring 2022 Brochure

E-mail: info@love4local.co.uk / Tel: 020 8942 2883

Welcome to the Love for Local Product Range

Here at 'Love for Local' we take great care in handpicking food and drink producers that fulfill two key criteria - quality and provenance. Never have the British general public been so interested in where their food comes from and here at 'Love for Local', we're striving to make this as transparent as possible.

We are offering distribution of these products to all trade outlets including Farm Shops, Delicatessens, Butchers, Coffee Shops, Garden Centres, Caterers, Pubs and Restaurants.

We believe that by choosing to stock our producers' products, or using them as primary ingredients in the kitchen, it can help your business in several ways:

- Demonstrate to your customers your commitment to lower 'Food Miles'
- Stocking or using products with clear provenance and lines of traceability
- Support businesses local to you and your communities
- Give your customers a choice they won't always find in the supermarkets.

"Thank you for showing an interest in the "Love for Local" product range. I set this company up in July 2009 with the purpose of helping the UK's general public enjoy more food and drink sourced locally. By working with us you're helping to achieve this goal, for which I am very grateful."

Toby Drought

Founder and Managing Director

How to Order

- All Ambient products must be ordered by 12pm on the Monday of the delivery week.
- Chilled products must be ordered by 10am on the Monday of the delivery week. These products are:

- | | |
|------------------------|-----------------------------|
| ➤ Court Lodge | - Organic Pouring yoghurt |

Store Cupboard

Ouse Valley Foods have joined forces with the renowned cartoonist, Ann Edwards and created "Spread the Word".

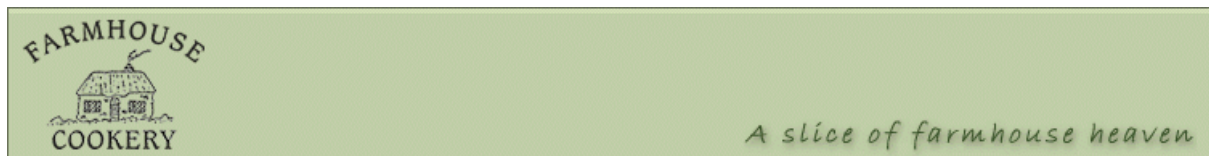

This is a joyful range of products that combines both food and Shakespeare.

Combining literature with food, Spread The Word is a witty take on Shakespeare quotes.

The jars are presented with fruity, eye catching illustrations of the Bard and an amusing light hearted synopsis of the play in question.

Farmhouse Cookery began life in 1988 from their farm kitchen. From supplying cakes to local villages, the business has grown into bigger premises and now provides cakes and pavlovas to many retailers.

With a workforce of 14, Farmhouse Cookery is based in the picturesque village of Bosham on the south coast.

Farmhouse Cookery is run by Jason Burt, who joined the company in 1990. Jason took over the family business from his mother, Gina, when she moved to Scotland. He has fond childhood memories of his mother's baking and proudly carries on the family tradition of baking handmade cakes with real ingredients.

Perfect PICKLES

Perfect Pickles has been producing fantastic flavours since 2002 when Dwayne Bartram took Perfect Pickles from a small scale operation to a larger enterprise.

Starting as all great companies do (from the garage!) Perfect Pickles has developed into a consistent and well regarded food production business in the South East.

Wessex Mill are a small family flour mill based in Wantage, Oxfordshire. The Munsey family have been milling Oxfordshire for over a 100 years. The mill is currently run by fourth generation flour miller Paul, with his daughter Emily studying to become a miller as well.

Their flour is milled using local wheat that they collect themselves from farms surrounding the mill. They ensure they only select the best wheat with high quality gluten by testing samples before they bring any into the mill. Being a small mill means they can store the wheats from each farm separately without batching. This allows them to carefully select the wheats that they mix together for the grist to produce quality consistent flour.

Wild Island was set up in 2011 by Nuala Grandcourt to create delicious dressings using the best ingredients available to her on the Isle of Wight.

She uses locally grown, cold pressed rapeseed oil as the base for her dressings, infused oils & marinades.

She infuses whole fruits in to their vinegars & balsamics for several weeks to create an indulgent ingredient which is great for marinading meat or fish, drizzle over salads or use simply for dipping with fresh bread and chilli oil

In 2007, Britain had well and truly fallen out of love with this salad staple – round, boring and tasteless. This is when The Tomato Stall began their quest to grow fine varieties, full of flavour from their 60 acre estate in the Arreton Valley on the Isle of Wight. Today they have over 200 varieties, with world class quality and we're delighted to be selling their full ambient range.

The Protein Ball Co was started by Matt & Hayley in 2015 with the simple aim of making all-round healthy protein snacking easier.

Hayley was making protein balls in their kitchen for Matt and their two children but struggled to find anything similar in the shops. Having always been into their healthy eating and fitness, Matt and Hayley wanted to encourage people to make a healthy choice when it came to snacking and launched The Protein Ball Co.

Our 6 bite-sized Protein Balls are made on the South Coast in Worthing, with all-natural ingredients and no added sugars. They are suitable for a gluten free and vegetarian diet and with a selection of flavours also suitable for vegans. We have recently added vitamins, making them better all-round!

THE GREAT BRITISH PORRIDGE CO

The Great British Porridge Co was founded by Jacqueline when she noticed how much better she felt after switching to a natural, healthy, dairy free diet. Sack loads of oats later, Jacqueline teamed up with The Protein Ball Co founders, Matt and Hayley Hunt and The Great British Porridge Co. was born.

They are proud of their 100% natural porridge which is handmade in Worthing, West Sussex. It's high in fibre, made with no added sugars and suitable for a vegetarian and vegan diet.

THE WOODEN SPOON PRESERVING COMPANY

To this day their small team has stayed true to the essence of why the company was created 40 years ago and they continue their story now. The desire to produce a unique range of traditional and contemporary preserves using natural ingredients.

A family business, they operate from a converted Kentish Oast House on the edge of the picturesque village of Wye. Their premises include a small factory shop with a viewing gallery overlooking the production area. The artisan production is supported by modern filling and capping equipment. This enables them to optimize efficiency without impacting on quality.

A Little Bit have a love for all things food and have always been inspired by the incredible versatility of fresh herbs and their ability to transform a simple sauce or dressing into something a little more extraordinary.

The first recipe was based on a secret family recipe. This was adapted by adding different herbs and natural ingredients mostly picked just outside the backdoor.

Every Little Bit jar is free from added preservatives, colourings and additives and only fresh herbs are used.

It was in Huntly that Helen first created her delicious traditional shortbread, and her friends and family loved the 'melt in the mouth' sensation.

Her husband Bill, a Drum Major, thought it was so delicious he decided to use Helen's baking to help raise funds for the local Huntly pipe band. Their touring helped spread her shortbread's fame far and wide, and soon, the aroma of home baking would fill the town as Helen established her own small bakery to meet demand. So popular was the light and crumbly shortbread that in 1992, Dean's moved to a new purpose-built bakery on the outskirts of Huntly.

Their story begins just short of 7 years ago when their then managing director Angie came upon the bright idea to begin producing crisps. She had already begun the production of rapeseed oil in a dedicated unit using oil seed rape from the Quex Park Estate in East Kent and seeing the abundance of potatoes from the estate felt that crisp production was the next thing...Everyone loves crisps!

After many hours in the office Angie would return home after a full day with different varieties of potatoes which she and her husband would then thinly slice and then fry with the aim of achieving the perfect crisp which indeed they did!

The Biltong Company (Beefit) started their business in a shoe box...the shoe box changed to a wine case, then to an old army trunk, and has now become the second largest biltong-drying chamber in the UK and certainly the most sophisticated and hi-tech.

They are based on an organic farm on the glorious Sussex coast and not to put too fine a point on it - their biltong is considered the best in Europe! Not only do the awards prove it, but most of the best retailers in the country sell their biltong in their own branded bags!

A Family Business that has grown from the Love of Garlic.

Colin Boswell and his family have been growing garlic on the Isle of Wight ever since his Granny Norah planted the first few cloves in her garden over 50 years ago. They have spent all the years since then exploring its history and origins, experimenting with the many different varieties on "the Island" and creating many garlic infused products, from chutney to beer and even ice cream!

If you like Ketchup, mustard and chilli then you will love MUST CHUP!"

MUST CHUP is the perfect combination of tomato and delicate mustard flavours and comes in four varieties. The 'Original' offers a fresh tomato and delicate mustard flavour which is great for kids and non-chilli lovers whereas the 'Kick', 'Big Kick' and 'Bad Boy Kick' provides varying degrees of chilli heat ideal for the novice and serious chilli lover.

Perfect as an all year round sauce MUST CHUP comes into its own as a marinade and table Ketchup in the Summer for BBQ's and in the Winter as a cooking sauce in stews, casseroles and soups. Day to day use includes roasting vegetables, pasta, steak or cottage pies, eggs on toast, stir fries, bacon/sausage sandwiches to name but a few!

The MUST CHUP range is gluten, dairy and nut free and is suitable for vegans and vegetarians.

Veggie Perrin has been making **their Pure Peanut Butter** for about 20 years now. As it is only

made from roasted peanuts it really has the real peanutty taste, unlike the adulterated brands found in most supermarkets. It is a very versatile food; used in sandwiches or on toast with fruit or jam. You can add to soups, pasta dishes make pesto and satay or other dips and sauces.

Whilst most people buy **Veggie Perrin's pure peanut butter** for its fantastic taste, it also has many other nutritional benefits. The much-maligned Peanut is probably the world's first recognised super food.

Although it is high in Calories, it is also a very good source of protein, unsaturated oils, fibre, vitamins and minerals and other nutrients.

Obsessed with the craft of baking from an early age, Lisa Madsen (Founder & MD of Honeyrose), left the green meadows of her native Denmark to train with a Parisian master patissier, then started Honeyrose Bakery in London nearly 20 years ago. Here they bake by hand in small batches using nature's finest organic ingredients – just like her Mother taught her, and how she now teaches her own children.

- Organic

OLOVESTM

NATURAL PITTED OLIVES

Matt & Hayley Hunt founded OLOVES after they had met in Barcelona in 2001. Matt had a dream to set up an olive company and what started with a single barrel and a hand seal, has now led to 50 million bags being enjoyed worldwide.

Their Greek Halkidiki olives are renowned to be the tastiest in the world! They are high in loveliness and really low in calories. No stones, no juice, just the best snack going.

Paynes is a fully working commercial beekeeping company established in 1922 by Mr Fred Payne. Still family run,

Paynes supply honey from their own hives, along the South Downs in Sussex, where there is an abundance of mixed flowers, which gives it a delightfully rounded flavour. A natural sweetener with soothing properties it is also believed that consuming locally sourced honey can help fight the effects of Hay fever.

Available in either the clear or thick form and in a variety of sizes, Paynes Honey is a perfect example of why British consumers don't have to look far afield to enjoy a premium food product.

LE RANGE MESURIER

DEFINITIVE TASTES

With an extensive range of CHUTNEYS, RELISHES, SAUCES, MAYONNAISES and MUSTARDS Le Mesurier's offers products that stand out from the crowd. Designed and created by Patrick Le Mesurier, Le Range reproduces the exquisite tastes, textures and colours more usually found in Michelin-starred establishments. Products such as Piccalilli, Chilli Jam Relish and their award winning BBQ sauce tread the establishment path, whilst other more unusual products, such as Saffron & Garlic Mayonnaise, show a real flair for, and understanding of ingredients.

The recipes at
Deerview Fine Foods

have been perfected by Brothers Graham & Martin Colombotti who believe in small batch, big flavour. Having both been keen cooks from an early age and watching their Grans make their own preserves, it was only natural for them to become artisan producers of Jams, Chutneys & Marmalades. Deerview Fine Foods use the best ingredients they can to provide the best flavours.

GOUPIE™

Simpsons of Hawkhurst make Goupie, a devilishly moreish chewy chocolate confection, hand-produced by the husband & wife team of Janet and Joe Simpson. Made fresh every week to order, Goupie uses a time-tested family recipe and is then hand-cut into distinctive triangular pieces. Goupie is made from high quality natural ingredients, topped with fine dark Belgian chocolate containing a minimum of 50% cocoa solids.

“Goupie has been made by my family for over 50 years,” explains Janet Simpson. “It has always proved a winner and never lasts more than a few hours when we make it for ourselves. It is an honest, tasty confection that seems to have almost universal appeal.”

It was in 1987 a year after buying an existing bakery and confectionery business based in Market Drayton that 'Image on Food' produced their first gingerbread novelty biscuits, and, that is all because their two year old daughter asked them to bake her a gingerbread "pig" with an iced pink curly tail!! They had trialled different recipes over a period of time, and, whilst they made these to sell in their shop and local market stalls, they got noticed. After a local tourist attraction requested 700 biscuits and sold out within 3 weeks... they realised that they had found a niche market! Still running a busy bakers shop the gingerbread was produced alongside the baking of the bread, morning goods, highly decorated cakes and gateaux's. From 1997 – 2005 the business grew and as well as selling to prestigious London stores, Independents & Distributors they were recognised by winning National Awards.

In 2014 in a little shop in Camden, London, Mighty Fine began hand making their honeycomb.

It was so popular that they shut up shop, perfected the recipe and set out to become the undisputed kings of Honeycomb.

Six years later, they are continuing to build the brand with a wider range of products, but all still made the same way. Every treat puts a spring in your step, a smile on your face and knocks the humdrum into touch!

MONTENZUMAS

EXTRAORDINARY
CHOCOLATE

Ex-Lawyers turned chocolate entrepreneurs, Helen & Simon Pattinson, founded Montezumas's in 2000 hand making their chocolate with one little machine and one shop in Brighton. "Since the first moment on the first day of the first shop, we saw the reaction of our customers to the small range of chocolates and knew we had done something right and the risk was worth it.

The Plaw Hatch Dairy herd is central to the health and function of the farm. They have 35 Meuse Rhine Issel (MRI) cattle, with a few cross Ayrshire, Brown Swiss and Montbeliard. They are a closed herd and all of the ladies were born on the farm; mothers, daughters, nieces and grand-daughters. MRI cows have amazing horns and a temperament suited towards their traditional farming. As their soils get too wet in the winter months, they are content to stay in the barns for 6 months of the year, during which they have lots of space and access to the yard for open air. They get excited as Spring approaches for when they are turned out to the fields. They cut their own hay and silage during the summer when they are out to pasture to keep them well fed in the barns during winter (they consume an astronomical amount!) During milking they are each given a scoopful of their home grown oats and some seaweed, it's not necessary for their diet but is a small and healthy treat for them. Each year they breed replacement heifers of which they keep about 6 a year. They run a Sussex bull (Winston) with the herd; a very docile breed, indigenous, and with excellent beef.

In an age where traditions can all too easily be lost and fade away, Wessex Country Gammons is proud to still use many of the techniques and recipes from yesteryear.

Richard Isaacs, founder and Managing Director, in the early years learned his butchery skills in a traditional butcher's shop in Wimborne Minster, Dorset. Richard's passion for the traditional inspired him go it alone from the shop and concentrate on perfecting the Dorset cured ham.

High Weald is a family run dairy, based on their organic dairy farm in West Sussex. Their cheese makers craft a delicious range of award winning cheeses from organic cow's milk, conventional and organic sheep milk and most recently goat milk.

The organic cow's milk comes from the cows based on their farm. The sheep milk is supplied by a specialist sheep dairy in Dorset and their goat milk comes from Kent. The cheese is all made in their modern dairy, just 20 metres away from where the cows are milked – food yards...not miles! They only use pasteurised milk to make their cheese.

Bookham & Harrison are a family run business located on the Surrey/Sussex boarder at Rudgwick. Bookham Harrison Farms forms part of a larger farming enterprise, with its main focus being dairy and the milking of 1200 cows.

Passionate about farming from an early age, Rob Bookham

studied Agriculture at Plumpton College, under the South Downs near Lewes and Brighton. He soon developed an interest in farm diversification, which led him to forge links with an Italian family who owned an estate in mid Sussex. He became closely involved with their Vegetarian Parmesan production, going on to manage the Twineham Grange Estate. Rob was a pioneer in the late 90's of Farmers' Markets in the Southeast. He is deeply committed to working with other producers in sustaining British Agriculture.

ChalkStream®

ChalkStream® grows the finest English rainbow trout on the world famous Test and Itchen Rivers of Hampshire. Slow grown for 2 years in fast flowing pure chalk stream water, their trout are lean and athletic with a unique, clean taste.

“There has been a trout revival recently, largely down to the trout-friendly chalkstreams we have in the UK, as well as the passion of producers such as ChalkStream®”

Yottam Ottolenghi - chef, restaurateur and food writer

SINGLE ESTATE FREE RANGE CHICKEN EGGS

Produced in a fantastic modern 'Poultry Palace'. Built to EU regulations and registered with DEFRA and Environmental Health ensuring the highest welfare and hygiene considerations in the heart of Sussex.

The unit allows the hens additional indoor space, extra perching & scratching area and most of all a huge outside space, allowing the chickens to lead a more natural and active life, exploring and foraging, freely and happily, with the shelter of numerous well established native trees to enrich the range and provide natural cover.

A more natural free ranging life means healthy hens and high quality eggs.

All of the chickens are rehomed at the end of their commercial life with the help of the amazing charity Fresh Start for Hens. They can continue to lay and give new owners great pleasure and tasty eggs for many years. Please contact the farm if you are interested in rehoming!

The eggs are supplied boxed in pre-pack labelled 6 egg (half dozen) cartons. Their egg production number is printed in edible grade ink on each egg.

Greenham

Quail & Duck Eggs

Greenham Quail is a family owned business run by John and Jane Hooton, along with their son Nick and have been producing quail eggs, from home reared birds, in increasing numbers since 1991.

The Hooton's primary concern is for the well being of the flock, resulting in exceptional quality eggs.

All the birds are fed GM free and drug-free food from the day of hatching.

Greenham Quail Eggs are available in retail packs with a label that includes serving suggestions.

Traditional Fresh Hollandaise

Ouse Valley is based in East Sussex, close to the river Ouse from where they get their name. Herons are often to be seen stalking the river providing the inspiration for their logo.

They are passionate about the seasonality and provenance of what they make, using nothing but the freshest, most natural ingredients. Their produce comes from local growers as much as possible, so they ensure authenticity and quality. No artificial preservatives or colours are ever used and each batch is cooked in small numbers to safeguard quality.

Their fresh traditional Hollandaise has become the 'Must' accompaniment bought alongside British grown asparagus during the season (April – June).

Alcoholic Drinks

Founded by three friends Tom, Ed and Fred, Shandy Shack started life on the medical wards of Southampton General Hospital.

Seeing the impact of high alcohol consumption, led Doctors Tom and Fred to explore ways to moderate.

The great British Shandy was the obvious choice and they set about producing their own range of craft beer shandies to service the moderation market - An emerging space between alcohol free and full strength beer.

By pairing high-quality, flavour-packed beers with a variety of natural sodas, they're putting a new spin on an old classic for those that love drinking, but hate hangovers.

All of their drinks are lower-alcohol (under 1.0 units per 330ml), vegan and gluten-free

Situated in the heart of the Meon Valley, Exton Park Vineyard is leading the way with its Single Estate Wines. This captivating Rosé combines precisely ripened Pinot Noir and Pinot Meunier grapes, pressed with exceptional care and patience until the wine blushes pink. With a stylish blend of their reserve wines, Exton Park's Rosé is a fragrant and enticing example of their innovative house style.

English rose in colour with a seductive strawberry liquorice nose, this wine reveals rich fruit characters in the mouth. Notes of white peach and rose petal develop into the rich plum flavours of the Pinot Noir grapes.

Based near Selborne in Hampshire, Mr. Whitehead's Cider Company creates new and interesting cider blends using traditional methods. Since the age of fifteen, Angus Whitehead has been making the most of the fruits of his garden. Guided by recipes handed down through generations, many experiments were created using all sorts of soft and hard fruit - his airing cupboard was never the same again! Almost all the apples and pears Mr.

Whitehead's Cider Company use are grown in their own orchard, supplemented with fruit from the Hampshire Downs and the South of England. The amount of varieties grown has allowed Angus to create some new and interesting blends, whilst using old and traditional methods to make special ciders throughout the strength range.

The Garden Cider Company was created by Ben and Will Filby. They grew up with an apple tree in the garden and when they were younger it was a climbing frame and a source of great ammunition, however, in more recent years it became the source of their cider.

They loved making their cider but were limited in the amount of apples they could get, stopping them from making more. Having seen their mum's apple tree drop its fruit in late summer and half the apples perish every year (much to the delight of the local wasps) they realised there was potential for increasing their harvest by using the surplus apples in other people's gardens, whilst the idea of using apples that may go to waste was all the more appealing. So they came up with a simple idea; if they could collect other people's spare garden apples in return for some of the cider they produced then they had the potential to make a lot more cider!

Cider orchards have been in decline for generations, so they're trying to make an orchard from as many garden trees as they can!

HEPWORTH

& CO BREWERS LTD

Keeping up the long tradition of brewing in Horsham, West Sussex, Hepworth & Co was opened in 2000 by Andy Hepworth, former Head Brewer of King & Barnes. Now employing 20 staff, Hepworth & Co. produces beers and lagers of distinction in cask, keg and bottle, using locally sourced ingredients wherever possible. Their commitment to local barley and hop growers has led to their participation in the *Warranty of Origin*, a code of practice guaranteeing the source of ingredients. They are also licensed by the Soil Association for the production and packaging of organic beers.

Most of their bottled beers (NOT Conqueror, Stout or Noel) are now declared gluten free. All the gluten free beers are now being sold with "Naturally Gluten Free" neck labels.

Soft Drinks

Wildling

WATER KEFIR

PURE FERMENTED MAGIC

Wildling's water kefir – Kombucha's wild child twin – is a fresh untamed tonic brimming with live cultures that you can enjoy straight up or used as a mixer. True to ancient methods, Wildling is proudly unpasteurised so they recommend you keep it chilled to keep the wild in check!

It is live, fermented and vegan. It is low sugar, low alcohol (<1.2%) and caffeine free.

They are a small family run business based in West Sussex with a passion for real, authentic drinks.

Made to transform your inner world and question your outer world. Follow your gut, make space for the good, take back the old ways.

NATURAL MINERAL WATER

South Downs Water is naturally filtered through the deep chalk layers of England’s beautiful South Downs for a truly exceptional taste.

South Downs Natural Mineral Water rises from an artesian spring 420ft below ground. It is naturally filtered and bottled at source.

South Downs Water is naturally high in calcium, low in sodium and enriched with minerals. Nothing is added (except some light carbonation for our sparkling) and nothing taken away.

All the 500ml plastic bottles are made from 100% recycled plastic and are fully recyclable.

Will Dobson is behind this family owned and run business, helped by a team of local staff. Apple juice has been pressed at Hill Farm since the 1970's as part of a substantial fruit farm supplying apples and pears to the supermarkets. Hill Farm is located in the South Downs National Park about 8 miles from Winchester; here there is a micro-climate which (conveniently) is beneficial to the growing of excellent apples and pears. A perfect spot for juice making.

Turner Hardy & Co. is the result of 15 years of lively banter fuelled by Hampshire based Eddie Turner and Hugo Hardman's love of proper foods and the perfect Bloody Mary. Having worked in and been supplying the pub, bar and restaurant industry for many years, the two were fed up with the poor quality and often from concentrate tomato juice that was the base of their Bloody cocktails.

So this started a journey of discovery that landed them on the Isle of Wight where they found a juice clearly created by the gods! Eddie and Hugo didn't waste any time and in 2015 started making their range of tomato juices squeezed from hand-picked Isle of Wight vine ripened tomatoes. Their tomato juices are high in lycopene, low in salt and sugar and are gluten free. So whilst perfect as a non alcoholic drink or mocktail they are also perfect as the base for the best of British Bloody Mary.

Kentish Cherry Juice

Michael and his family grow cherries on the Kent/East Sussex border and have 4 cherry orchards in total with around 9000 trees. Apart from fresh Kent cherries, they also produce a fabulous pure Kentish Cherry Juice which is made from the juice of approximately 3kgs of pressed Kent Cherries. Nothing is added and in the 8 years that they have been making the juice they have developed a fantastically loyal following for their cherry juice. The health benefits of cherry juice are becoming increasingly well known as this genuine super juice has strong anti-inflammatory properties that really make you feel the benefits from just a small glass a day.

Folkington's ensure that their juices are made from particular varieties of fruit that they have carefully selected and come from the same growers year on year. Folkington's juices are made from 100% pure juice (not from concentrated juice) and

are free from any preservatives, unnecessary additives, added sugar* or sweeteners. They add a pinch of natural salt to the tomato juice and a little citric acid to the tomato and pear juices to keep them happy.

Since 1949 orchards have been cultivated on Ringden Farm, located in the High Weald Area of Outstanding Natural Beauty, on the Kent / Sussex border. Ringden Farm Apple Juice was set up by Chris and Lesley Dench in 1990 using the fruit from their orchards after a violent hailstorm marked the crop. They now produce a range of over 20 award-winning single variety apple juices. The use of traditional pressing methods and

slow pasteurisation preserves the real flavour of English apples. In more recent times they have increased their range of drinks to include Pear Juice and a number of fruit blends.
